### TECHNICAL SESSION RESERVATION FORM

# The Challenges of ADA Compliance in Design and Construction

February 16, 2011, 4:15 PM

Radisson Hotel, King of Prussia

ASHE Delaware Valley is honored to present to our membership a panel discussion technical session on the challenges of complying with Americans with Disabilities Act (ADA) in transportation design and construction. ADA design compliance represents challenges to transportation agencies and municipalities, and increasingly there appears a disconnect between design compliance and the challenges presented in construction and construction inspection. Practical, feasible, intent, compromise and consistent are terms deployed among these entities, but there is growing frustration among inspectors and contractors. Perhaps there are no simple answers, but the intent of the forum is to discuss design standards, checklists, toolkits, studies, and assessment measures to insure ADA compliance in a finished product is achieved.

Our panelist are representatives of public agencies, the design community and construction including: Francis J. Haney, Traffic Services Manager for PennDOT District 6-0, Susan Giannantonio, PE, CPESC of Gannet Fleming, Inc., and Phillip Mandato, President of Felix Mandato & Sons, Inc.

**There will be a \$20 charge for all non-ASHE (DeVal) members (Check or cash collected at the door-separate from the dinner fee).**

Due to high demand, you **MUST** reserve a space to attend the ASHE Technical Session.

Name:	Company:	Telephone:	ASHE Member? (Y/N)

*Note: A separate reservation is required to attend the dinner meeting following this session.*

RSVP to Jeff Obrecht (610-722-9050) at [jobrecht@apexc.com](mailto:jobrecht@apexc.com) or Fax your reservation to 610-722-9010
